

MV4560 Cooling System Pressure Test Kit

The Mityvac MV4560 Cooling System Pressure Test Kit makes automotive cooling system testing simple, efficient, and economical. It combines our unique hand pressure pump with four cooling system test adapters and two dual-function cap test adapters to quickly reveal external cooling system leaks and detect internal leaks and defective caps.

Features/Benefits

- Economical, accurate and simple method to find common causes of overheating
- Pinpoints external leaks caused by loose clamps or leaky hoses, connectors, water pumps, or radiators
- Diagnoses internal leaks caused by a blown head gasket or damaged block or head
- Test radiator and coolant bottle caps to ensure they are maintaining the correct pressure
- Contains adapters to test the cooling system and caps of most US and Asian cars and light trucks, as well as many European vehicles
- Application specific adapters fit the radiator or coolant bottle like the original cap

MV4560 Cooling System Pressure Test Kit

Durable, accurate gearless diaphragm style gauge

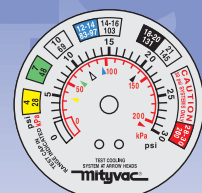

Powerful inline piston design

One finger lever-action vacuum release

Durable, lightweight, non-corrosive PVC construction

Pivoting lever action maximizes output with minimal operator effort

Comfortable ergonomic handle reduces hand stress

Gauge displays psi and kpa units

Cooling system leaks caused by a loose clamp, cracked or split hose, failed pressure cap, or blown head gasket can cause over-heating and serious engine damage. The MV4560 can help avoid major diagnostic and repair bills by quickly and cleanly pinpointing external and internal leaks.

Small Bayonet (shallow neck)
• Fits many Asian vehicles

Small Bayonet (deep neck)
• Fits many Asian vehicles

Large and Small Cap Test Adapters

Large Bayonet
• Fits most passenger vehicles through mid 80's as well as many late models

Threaded
• Fits most late model GM & Ford and some European vehicles
