Electronic Grease Meter

Alemite’s in-line Grease Meter works with virtually any type of grease-dispensing valve or gun as well as air operated equipment, taking the guesswork out of bearing lubrication. Accurate, reliable grease dispensing means lower lubricant consumption and increased bearing, component, and machine life. The result is greater efficiency and significantly less downtime.

Features

- Easy-to-read, resettable LCD electronic display indicates batch cumulative totals
- Lightweight, in-line design allows use with virtually any grease-dispensing valve
- Oval-gear technology

Benefits

- Accurately dispense grease without guesswork
- Lubrication points receive manufacturer-recommended amount of lubricant
- Decreases lubricant waste due to over lubrication
- Excellent for preventive maintenance programs
