

SKF agricultural roller chains

Contents

A SKF agricultural roller chains

SKF agricultural roller chains	4
--------------------------------------	---

B Agricultural roller chains

Agricultural roller chains, DIN 8189 / ISO 487 – 1984	7
Agricultural roller chains, attachments for S-type	8
Agricultural roller chains 55V, acc. DIN 8189 / ISO 487 – 1984	20
Agricultural roller chains, type 55VD	23
Agricultural roller chains, attachment for 55VD	24
Agricultural roller chains, type 38.4	25
Agricultural roller chains, special attachment for 38.4	30
Special agricultural roller chains P41.3, attachments for P41.3	32
Agricultural roller chains A-type	34
Special agricultural roller chains	36
Agricultural roller chains CA-type	38
Agricultural roller chains, attachment for CA-type	39
Special agricultural chains with attachment	68

C Special combine chains

Special combine chains	71
ZGS38 combine chain with attachments	73
Agricultural roller chains, attachment for CA-type	74
Rice harvester chains	76

D Drive chains

Short pitch simplex precision roller chains (A serie), ISO 606, DIN 8188, AISI B29.1	85
Short pitch duplex precision roller chains (A serie), ISO 606, DIN 8188, AISI B29.1	86
Short pitch simplex precision roller chains (A serie), ISO 606, DIN 8188, AISI B29.1	87
Short pitch simplex precision roller chains (B serie), ISO 606, DIN 8187	88
Short pitch duplex precision roller chains (B serie), ISO 606, DIN 8187	89
Short pitch triplex precision roller chains (B serie), ISO 606, DIN 8187	90
Heavy duty series precision roller chains	91
Heavy duty series precision roller chains, AISI B29.1	92
Heavy duty short pitch roller chains, SH series high strength	93
Short pitch roller chains, SPH series high strength	94
Heavy duty short pitch roller chains, SHH series high strength	95

SKF agricultural roller chains

Get a chain that works when and how it is supposed to

Farm equipment endures challenging conditions. Often during intense periods of work, when everything needs to perform at its best and unplanned downtime can be extremely costly due to lost in productivity.

The SKF agricultural chains are developed to meet high demands and interchangeable with industry standard chains. Solutions are often developed in cooperation with distributors and end users ensuring we meet real-life challenges.

SKF chains are used extensively in the agricultural industry for combined harvesters, grain elevators, grading machines, balers, and more. On request, we provide special treatments, such as zinc plating. We also deliver sprockets for all different chains and their applications.

A broad solutions portfolio for the agricultural industry

We provide a range of bearings, lubrication solutions, cassette seals and other products and services developed to help meet the growing demands of the changing agricultural industry. Whatever the farm equipment – from complex combines to specialized attachments – SKF has solutions that are up for the challenge.

SH series roller chains have a greater ultimate tensile strength (about an additional 25%-35%) over ANSI standard roller chains by using through hardened pins, these chains also provide a greater shock load resistance. The dimensions of the chain are identical to ANSI heavy series standard roller chains.

1) Bushing chain; d₁ in the table indicate the external diameter of the bushing.
2) Straight side plates.

Short pitch roller chains, SPH series high strength

SKF Agri solutions

Achieve more with less

Size, location, elevation, climate, soil structure and crop rotation make every farm unique. But every farm's equipment endures many of the same challenging conditions. Mud, dust and debris. Extreme heat and cold. Rain and runoff. Corrosive chemicals. Long periods of inactivity, then intense periods of work. Rising fuel costs and new environmental regulations only complicate matters.

SKF, together with its brand PEER, provides solutions and products for equipment in all stages of the crop cycle.

With a full standard assortment from SKF and complementary, customer-specific solutions from PEER, you can achieve high reliability, at low ownership and operating costs. You can get global availability and a best-in-class bearing logistic network, enabling you to acquire any spare part and have it shipped to wherever you are located.

Reliable and validated solutions for all agriculture machines

Bearings

Benefit from bearings equipped with a sealing design optimized for the application, from 1-lip to 7-lip, from standard cassette to SKF Mudblock seal.

Bearing Units

Bearing units come in a variety of housing designs, with square flange, oval flange or rounded, and materials such as pressed steel, steel grey cast iron and ductile cast iron.

SKF Agri Hubs

Whether designing agricultural equipment or using it to farm, high availability of machinery is crucial to meet productivity requirements. Using SKF Agri Hub as a solution can make it possible.

Seals

Out in the field, seal failures can lead to several costly problems, such as unplanned downtime, lost productivity, and contaminated soil and crops. Robust sealing solutions from SKF can help withstand the severe contamination common to agricultural applications.

Lubrication systems

SKF and Lincoln automatic lubrication systems help you make the most of your time in the field. Our lubrication solutions are designed to keep your machines running reliably throughout the season.

Condition Monitoring

To help extend service life and reduce costly unscheduled downtime, SKF offers a variety of condition monitoring solutions – including the technology to monitor the current condition of your machine and the diagnostic services to understand it.

Electronic Parking Brake

Developed for parking and emergency brakes in tractors and combine harvesters, it's a compact, smart solution that offers farmers increased reliability, comfort and productivity in varying conditions.

Steering encoder unit

SKF steering encoder units are compact steering input devices for steer-by-wire systems that combine reliable encoder technology with plug-and-play simplicity.

Power transmission products

To help you improve your equipment performance, we have an extensive range of belts, gears, sprockets, couplings, bushings and support services, each of which can be customized to meet your specific needs.
