

Don’t throw your used bearing away – remanufacture it

Let us help you save time, money and the environment!

Why?

Avoid CO_2 emissions
Reduce your carbon footprint and energy consumption

Shorten lead time
The standard process is often less than six weeks

Documentation
Get technical documentation for improvements and certificates for environmental savings

Reliability
Same warranty and quality as a new SKF bearing

Tailored to your needs
We can upgrade according to your needs

Lower cost
Remanufacturing reduces life-cycle costs

How?

Dismount properly

Send the bearing to SKF

You get an offer*
Additionally you can get analysis results to drive improvement of your machinery.

SKF remanufacturing

Remanufactured bearing delivered

Savings

3 280 KG
steel**

12 000 KG
CO_2**

29 000 KWH
energy**

*If applicable.
**Example savings calculated for SRB bearing, 232/800.

Packaging instructions

- Re-use box from new bearing if possible
- Do not clean the bearing after dismounting. If the bearing is dry, use preservatives to avoid corrosion
- Protect from moisture
- Send the used bearing and your contact information to the regional SKF Service Centre listed below
